OUR COMPANY

INTRODUCTION TO ACCOUNTABILITY

Accountability is a web-based service that was created by founder members Howard and Wendy Kemp, birthed by pure frustration, with the aim of "protecting" businesses through reducing the risk caused by outstanding payments.

By partnering with the major credit bureaus, our members have access to an active credit database of 22 million consumers and 3 million businesses. Accountability members are able to access our user-friendly website 24 hours a day, 365 days of the year. A simple login process, affords our members the opportunity to vet prospective clients and accurately

determine their credit worthiness before extending them the required trade credit. Accountability is a TransUnion Credit Bureau Channel Partner. As such, our actions are determined by the provisions of the National Credit Act, No 34 of 2005 and the National Credit Regulations

OUR VALUE PROPOSITION

We aim to give our members the option to manage their debtors according to the status of their relationship. Listing their customer with the Credit Bureaus is most often the last resort for our members.

Our collection facility is not only user friendly but is also highly effective. Generally, a letter of demand is perceived to be an empty threat as most defaulters know that amounts below R20 000 are unlikely to be pursued via the legal process.

Our letter of demand differs from the idle threat in as much that there is recourse. We clearly state that should the amount not be paid by the stipulated date (which is 28 calendar days from the initial letter of demand as per the National Credit Act), we will list the Business/Directors or in the case of a consumer, the individual, as a default payer with the major Credit Bureaus.

MISSION STATEMENT

We aim to be the dominant web-based "accountability" partner of South African SME and corporate business clients by assisting them to derive maximum value from business and consumer data that is held by credit bureaus. We strive to attain...

FOR OUR CLIENTS

- Fast and effective Letters of Demand
- Increased cash-flow in 98% of the cases, through swift recovery of collections
- Unrivalled, direct access to information through the major national Credit Bureaus - anytime, anywhere

FOR OUR EMPLOYEES

- An opportunity to share in our growth
- A professional performance driven culture
- Job satisfaction based on equitable remuneration, personal development and respect

FOR OUR COUNTRY

- Upholding high moral and ethical standards
- Ensuring better accountability of the nation
- Social development programs addressing the plight of the needy

FOR OUR CREDIT BUREAU PARTNERS

Constant updates of business and consumer credit data

QUALITY SERVICES

MEMBERSHIP BENEFITS

We keep our members connected and informed by encouraging networking, providing important legal documents and -advice, equipping for recovering aged receivables and keeping them posted with the latest scam and defaulter alerts.

Membership to Accountability comes with unique benefits over and above the unique services that we offer to our clients.

INTRA-MEMBER NETWORKING

We refer to this service as Accessibility. Our members agree to make themselves available to be contacted by other businesses for marketing purposes and in return have the opportunity to contact other members to promote their own products and services.

DOWNLOADS AND ADVICE

Our members have access to several downloadable legal documents, including Credit Application Forms, Acknowledgement of Debt, Criminal Consent Forms, etc. When possible, we assist members by providing limited advice pertaining to their particular actions or legal standing.

ACCOUNTABILITY STICKERS

Members may purchase colour Accountability stickers to attach to invoices or statements - these are also available in electronic format. Our graphics are usually instantly recognizable and they indicate that our members are also equipped for recovering aged receivables.

ACCOUNTABILITY SECURITY ALERT

We inform our membership base of the scams currently circulating in addition to highlighting habitual defaulters.
